

JOIN THE ECC 2021!

Since 2013 the European Control Conference (ECC) has been held annually. The conference aims to bring together academic and industrial professionals in the field of systems and control, and to promote scientific cooperation and exchanges within the European Union and between Europe and other parts of the World. In 2021 we cordially invite you the first ever **HYBRID ECC**. Whether you join in person or connect remotely we promise you:

- Top notch speakers who will present the latest developments in control science and technology
- A great opportunity to present your own research to the community
- Lively discussion and Q & A sessions
- Inspiring workshops and special sessions
- Networking opportunities with colleagues from across the globe

CALL FOR PAPERS

To prepare an outstanding technical program we invite you to submit:

- Contributed papers
- Invited Session proposals
- Extended abstracts

The accepted papers will be indexed and published on the [IEEE Xplore digital library](#).

We are also working towards a stronger link with the [European Journal of Control](#) for publication of selected papers of the conference.

Furthermore, we also welcome submission of:

- Pre-conference Workshop proposals,
 - Tutorial proposals
- that will complement the technical program by giving all participants a view on the control-related challenges arising today from academia and industry.

The submission of papers proposing recent advances of applied control research in industry applications is encouraged.

All papers, invited session proposals, pre-conference workshop proposals and tutorial proposals must be submitted electronically through the [PaperCept Conference Management System](#).

Submissions must conform to the policy found at the [conference website](#).
